

GEORGIA HEALTHY FAMILIES

Overview

Georgia Healthy Families (GHF) is a program to deliver health care services to members of Medicaid and PeachCare for Kids. The program is a partnership between the Georgia Department of Community Health (DCH) and private care management organizations (CMOs) to ensure accessible and quality health care services for all of the Medicaid managed care beneficiaries. By providing a choice of health plans, GHF allows members to select a health care plan that fits their needs. The GHF department also monitors the CMOs to ensure compliance with contract requirement standards for contract management, member services, provider services and quality services.

Program Description

GHF provides health care services to children enrolled in PeachCare for Kids and certain children, pregnant women and women with breast or cervical cancer on Medicaid. Children in foster care are not enrolled in GHF.

Benefits

Members continue to receive the same benefits that were offered with Medicaid/PeachCare for Kids. The health plans also offer additional benefits such as:

- Expanded access to plans and providers
- Added member education on accessing care, referrals to specialists, member benefits and wellness education
- More efficient health care service delivery and better member care
